- Stuffing, lashing and choking of the cargo as per requirements

- Cargo supervision during loading , unloading, and in transit

- Transportation of Heavy Lifts and Over Dimensional cargo from Warehouse to Port and vice versa

- Customs Broking for Special Cargo, Heavy Lifts and Breabulk Cargo

CUSTOM CLEARANCE

We are a licensed customhouse broker (**CB NO. 11/2143**) in India. Our clearance team is well trained to navigate the complicated customs regulations and process.

Our Clearance Services include :

- Advise on pre-shipment documentation to make the document compatible with the Indian customs for appropriate classification in customs for easy clearance.
- Custom formalities for Export Clearance i.e. Preparation of shipping bill, classification as per the scheme (free/ drawback / DEPB /DEEC), receipt of goods, measurement, marking, labelling, customs examination, obtaining customs out of charge and handing over of cargo to the carrier.
- Custom formalities for Import Clearance i.e. HSN classification, duty calculation, preparation of bill of entry, assessment, customs examination, obtaining customs out of charge and delivery to the destination.
- Port handling and arranging bonded warehouse as and when required by the client.
- Drawback Refunds
- ATA Carnet

WAREHOUSING

Whether your company requires essential warehousing & distribution or end-to-end supply chain network management, RTC through its team of operation expertise is able to provide efficient solutions to our customers that helps. The third party logistics process begins with analysis of your requirements followed with creation of customized solutions to meet your business needs.

Our Warehouses have high standards of aesthetics, security, maintenance and space utilization. We are equipped with well trained and experienced staff who ensure proper communication and documentation on day to day basis. We provide warehouses ranging from 5,000 sq. ft. to 1,00,000 sq. ft. depending on client's requirements. We handle all sorts of material including Aluminium Product, Copper products, Wire Products, Steel Products, PTA Bags - 1 M.T. Bag, Air Conditioners, Electronics Products, Agrochemicals from 5 lit to 250 lit Drums, Plastic Granules in 25 kg Bags (PVC, PP, HDPE, LLDPE, etc.)

Safety of your stock is our prime consideration. Space & Infrastructure of our warehouses is laced with ample open space for multiple vehicle movement, 24X7 CCTV coverage, fire safety equipment and customer service team to help you gain operational efficiency and competitive edge. As custodians of high-value inventory, it has always been our pledge to deliver on the promise by adhering to high standards of quality.

TRANSPORT SERVICES

Whether you have a single shipment, a few pallets or multiple full loads or specialised cargo, we can handle your cargo and give you the best solution for your road transport solution that matches your needs exactly.

We offer road transport services for:

Full load shipments

Part load shipments

Groupage shipments

We arrange safe and efficient delivery for general as well as specialised transport. The cargo is transported in compliance with all the governing rules and regulations. Our **specialised transport services** include:

Dangerous goods

Temperature-controlled transport

Odd size/Out of gauge

High-value goods

CUSTOMS BONDED WAREHOUSE

Like non-bonded warehouse, our certified Customs bonded warehouse is strategically situated in a secure location.

Some of the Advantages of customs bonded warehouse are as below:

1.Long-Term Storage

2. Deferred Duties

3.Ideal for Storing Restricted Goods or goods that involve lengthy paper work

4.Convenient for International Shipping

With custom bonded facility, goods can be kept safe and secure under surveillance; duties and taxes are deferred until the goods leave the facility; there's no rush for paperwork, payment or inspection; goods can be held back if demand for the product is low. We ensure customs bonded warehousing process is simplified and stress-free for the importers .

PACKING & LABELLING

We do more than just store your stocks for you. Our value added services comprise of below services.

Packing

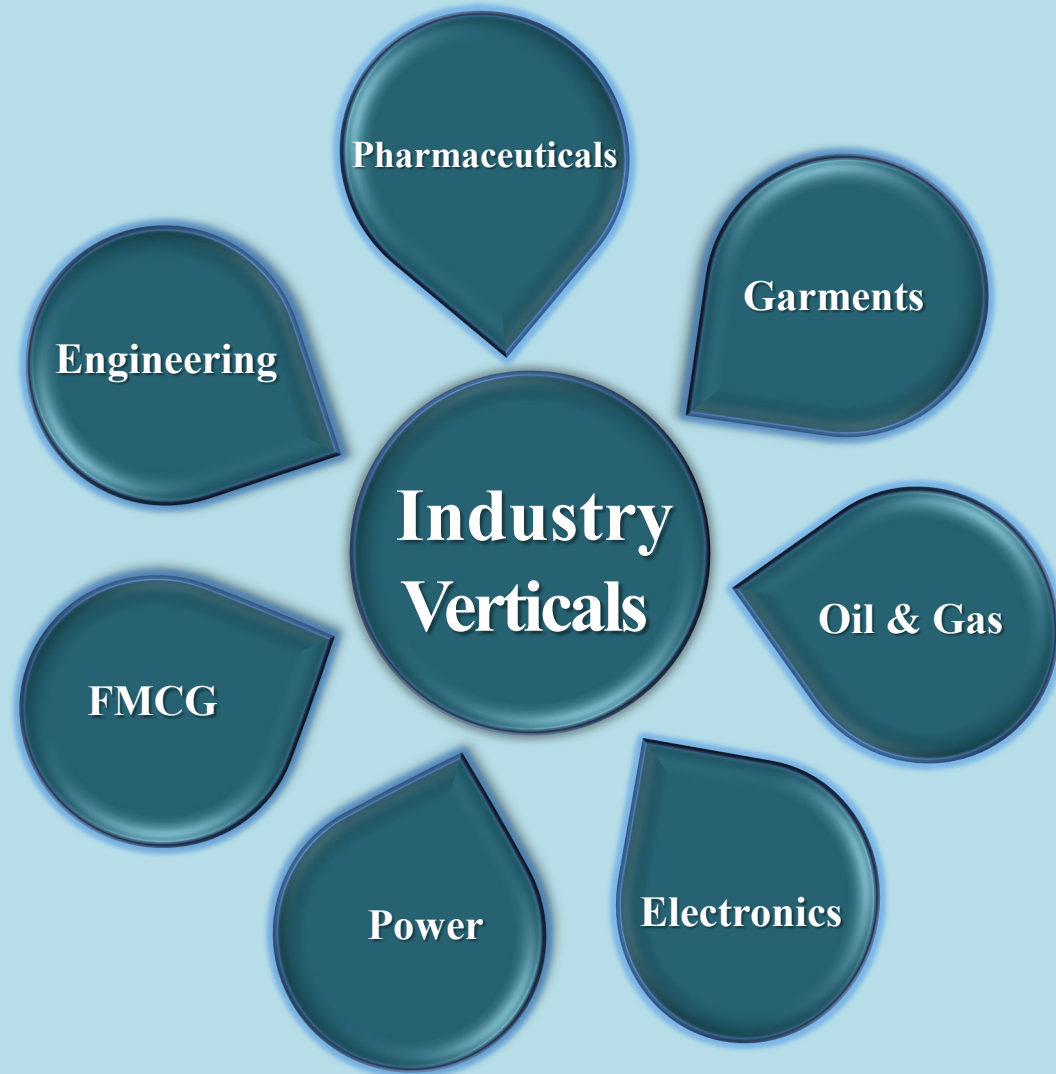

Depending on your requirements, we can replace packing of products. For example repacking of damaged boxes, packing into new outer cartons or display cartons as per country-specific, customer-specific and language-specific requirements.

Labelling

We can label your products with customer-specific information, including logos and barcodes.

BONDED WAREHOUSE-STICKERING

CERTIFICATION

**CB No.
11/2143**

Customs House Agent

A **customs house agent** (CHA) is licensed to act as an agent for transaction of any business relating to the import or export of goods at a customs station.

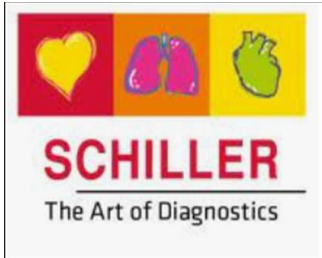

AEO status is a certified standard authorisation issued by customs administrations. It certifies that an economic operator has met certain standards in relation to safety and security, systems to manage commercial records, compliance with customs rules, financial solvency, practical standards of competence or professional qualifications. Its primarily a trade facilitation measure that recognises reliable operators and encourages best practice in the international supply chain.
